MERN STACK DEVELOPER

Motivated MERN Stack Developer with expertise in building scalable web applications. Proficient in React.js, Node.js, and MongoDB. A collaborative team player with a focus on delivering high-quality solutions. Seeking a dynamic role to leverage skills in a challenging development environment.

Projects

Food Wave

This is a donation website where the desired person get the food and the donator can easily provide the food. I used here react for front end and mongodb for storage with user authentication. User can request to get the food and he can see easily his requested food in the my request food. Donator can update the food condition. I also use mongodb CRUD operation.

Jerins Parlour

This is a women parlour website. where providers provide services. Users can book any services that they want to book. There are so many services here. When a user book a services then he can see in his dashboard. He can give a review. Once he give a review then he can also see in the testimonial section. In this project there are two dashboard, one is admin dashboard and the other is user dashboard. In the admin dashboard admin can make another admin.
